# WizMind

Dahua Technology, with its award-winning deep-leaning algorithms, proudly releases WizMind, a portfolio of solutions composed of project-oriented products including IPC, NVR, PTZ, XVR, thermal and software platform, delivering precise, reliable and comprehensive AI solutions to verticals including government, retail, energy, finance and transportation.

## Human Applications

Powered by AI chip and deep learning algorithm, WizMind provides comprehensive human-oriented solutions, making it possible to quickly and accurately act on what matters to you. In addition, it provides effective AI search to locate targets, and various human-based data for business analysis.

## Vehicle Applications

WizMind boasts multiple vehicle-based AI solutions, which provide more attributes of vehicles for easy control, quick search and business analysis.

## Thermal Applications

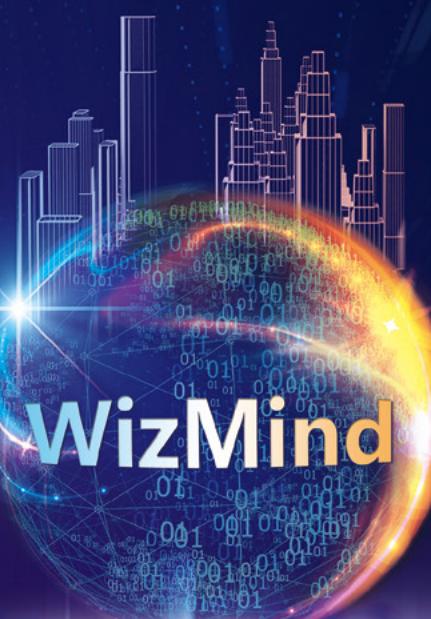

WizMind combines deep learning algorithm with thermal imaging technology to help users achieve ultra-long distance monitoring in harsh environments, highly accurate non-contact temperature monitoring , and early detection of fire.

## WizMind Ecosystem

The Dahua WizMind series is compatible with major third party technology partners. Besides, the WizMind Ecosystem provides sufficient DHOP and API for our technology partners.

## Wiz Mind

### Empowering verticals with leading AI technology

# WizMind

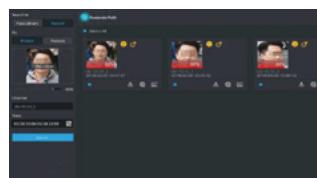

# Human Applications

## Face Recognition

Dahua Face Recognition solutions offer highly accurate detection rate and recognition rate with its advanced AI technology. The accuracy rate is up to 98%. It provides features such as blacklist alarm, VIP recognition, stranger alarm, AI search, face tracking, statistics etc. to improve user experience.

Face Recognition

AI Search

Face Tracking

## Privacy Protection

Based on Deep Learning Algorithm, Privacy Protection supports real-time mosaic masking of human face or human body detected in the monitored scene, protecting people's personal privacy. This function can achieve target detection of max. 64 objects/frame with a detection rate of up to 98%.

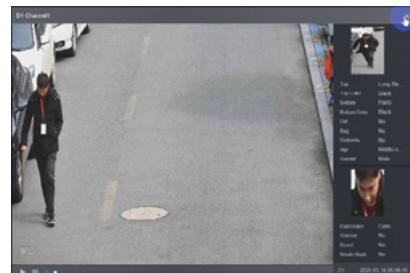

Face Mosaic

Recoverable Video

## Human Video Metadata

Human Video Metadata technology with deep learning algorithm can detect, track, and capture images of people. It selects the best images and extracts attributes of targets to locate them immediately, supporting up to 20+ kinds of human attributes.

Human Video Metadata

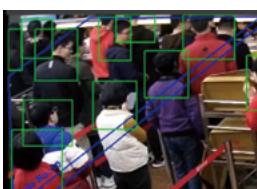

Quick Target Search

## People Counting

Dahua People Counting can track and process moving human body targets to realize accurate statistics of people entering, leaving and currently within the monitored area. This feature provides customers with valuable data for business report analysis with up to 98% counting accuracy.

People Counting for Line Crossing

People Counting in Area

Queue Management

# Human Applications

## Stereo Analysis

With deep learning algorithm and 3-dimensional technology, Dahua Stereo Analysis technology offers various functions that can recognize people's behaviors, including fall detection, violence detection, strand detection, people approach and number of people error.

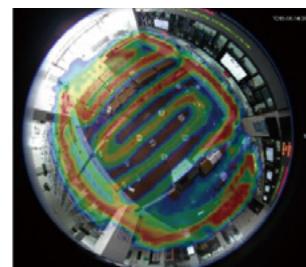

Fall Detection

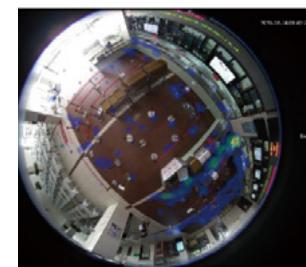

People Approach

## Heat Map

With deep learning technology, Dahua's new heat map function demonstrates two types of heat map charts based on the number of people and average strand time. Being widely used in retail shops, this feature enables business owners to easily analyze customers' preferences.

Heat Map for Number of People

Heat Map for Average Strand Time

## Wide Area Security

Through multi-sensor automatic stitching technology, the Dahua Panoramic Surveillance realizes 360° monitoring with high-speed PTZ camera. It utilizes both panoramic and detail images to ensure that customers will not miss other targets on the panoramic view while looking at the details of the target's behavior on the PTZ camera.

panoramic view

Target Details

## Smart Tracking

Aside from detecting humans entering a restricted area, smart tracking also automatically track objects all the time. According to different scenarios, Dahua provides different tracking solutions with accuracy rate of up to 90%.

Target Detection

Auto Tracking

# Vehicle Applications

## ANPR

With deep learning algorithm, Dahua ANPR (Automatic Number Plate Recognition) technology can recognize the number plate information of vehicles from 58 countries. This system can also be used to provide higher security in restricted area.

ANPR

## Illegal Parking Detection

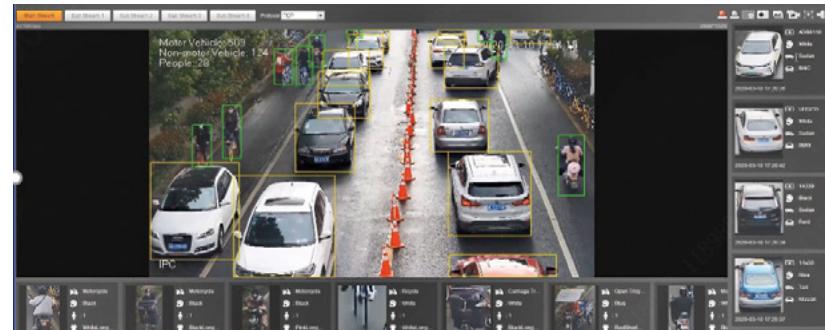

When a vehicle enters the monitored area, the Dahua Parking Detection technology based on CNN deep learning will capture its images and save metadata. It helps security personnel to ensure smooth traffic, and reduce accidents and property losses caused by illegal parking.

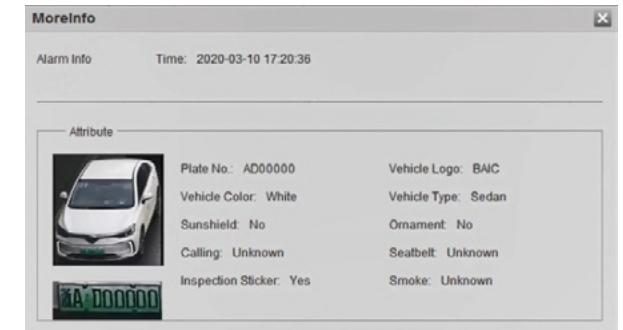

Illegal Parking Detection

## Vehicle Video Metadata

Vehicle Video Metadata includes vehicle attributes information extracted from a target that can be used for data retrieval. With the detection rate of up to 99%, this system can be used to locate targets quickly and efficiently.

Target Detection

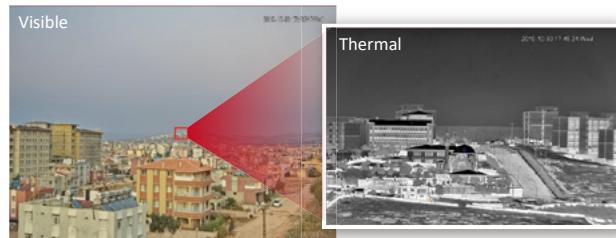

Vehicle Metadata

# Thermal Applications

## Long Distance Monitoring

With deep learning and thermal technology, this camera can realize long distance monitoring that can easily recognize human or vehicle even from far distance. In addition, it is also not affected by environmental factors, enabling it to provide a highly accurate thermal image of the scene.

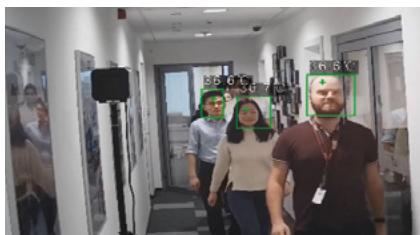

Ultra Long Range Detection Up to 20Km

Tested in Foggy Weather

## Temperature Measurement

There is a corresponding relationship between radiation energy and temperature. The different gray value can represent the different temperature in order to achieve an effective temperature monitoring function. The accuracy can reach  $\pm 0.3^{\circ}\text{C}$  with the blackbody.

Human Body Temperature Monitoring

## Fire Prevention

Thermal cameras can detect mild differences in temperature change. This feature allows thermal camera to detect objects with a temperature difference compared to the average temperature of the scene. As fires usually have much higher temperature than the surrounding environment, Dahua thermal cameras are able to detect the presence of fire in the scene.

Advanced Fire Detection

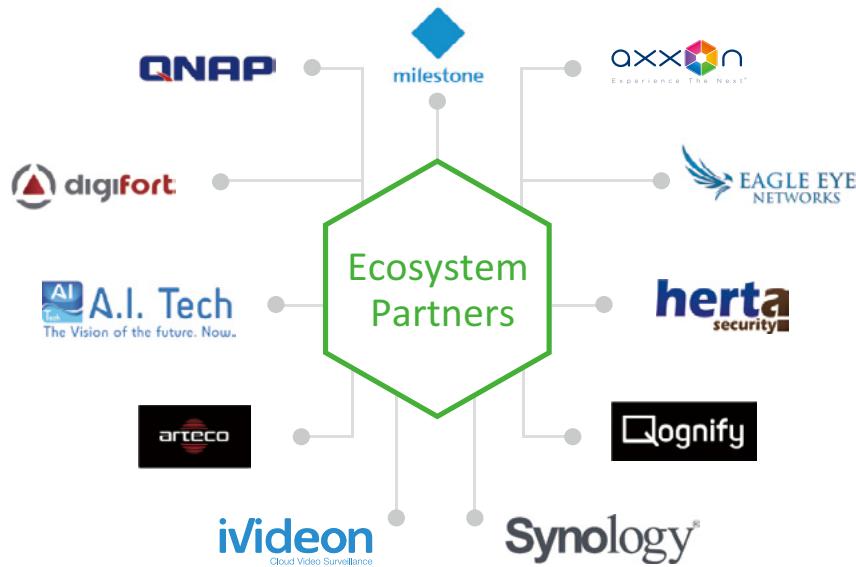

# WizMind Ecosystem

## Good Compatibility

Compatible with more than 200 technology partners, such as Milestone, Genetec, AxxonSoft, Avigilon, ISS, Qognify, Luxriot, etc..

Advanced features like face recognition, perimeter protection, people counting are supported with main partners, which create different solutions to meet different requirements.

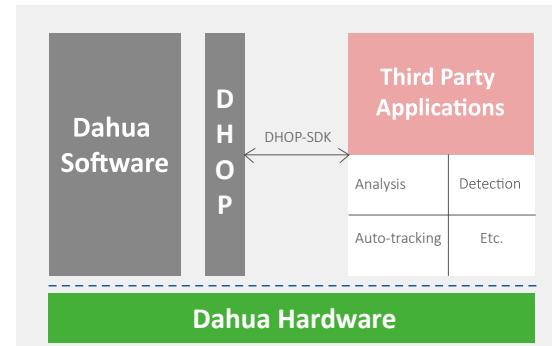

Milestone verified, Dahua heat map, metadata, people counting, face recognition, and plugin are tested and verified by Milestone team.

## DHOP

Dahua Open Platform (DHOP) allows 3rd party applications to be downloaded and installed on Dahua Network Cameras (WizMind IPC and thermal) based on your actual needs.

With more than 10 existing technology partners' application, bring more flexibility to our customers.

## Sufficient API

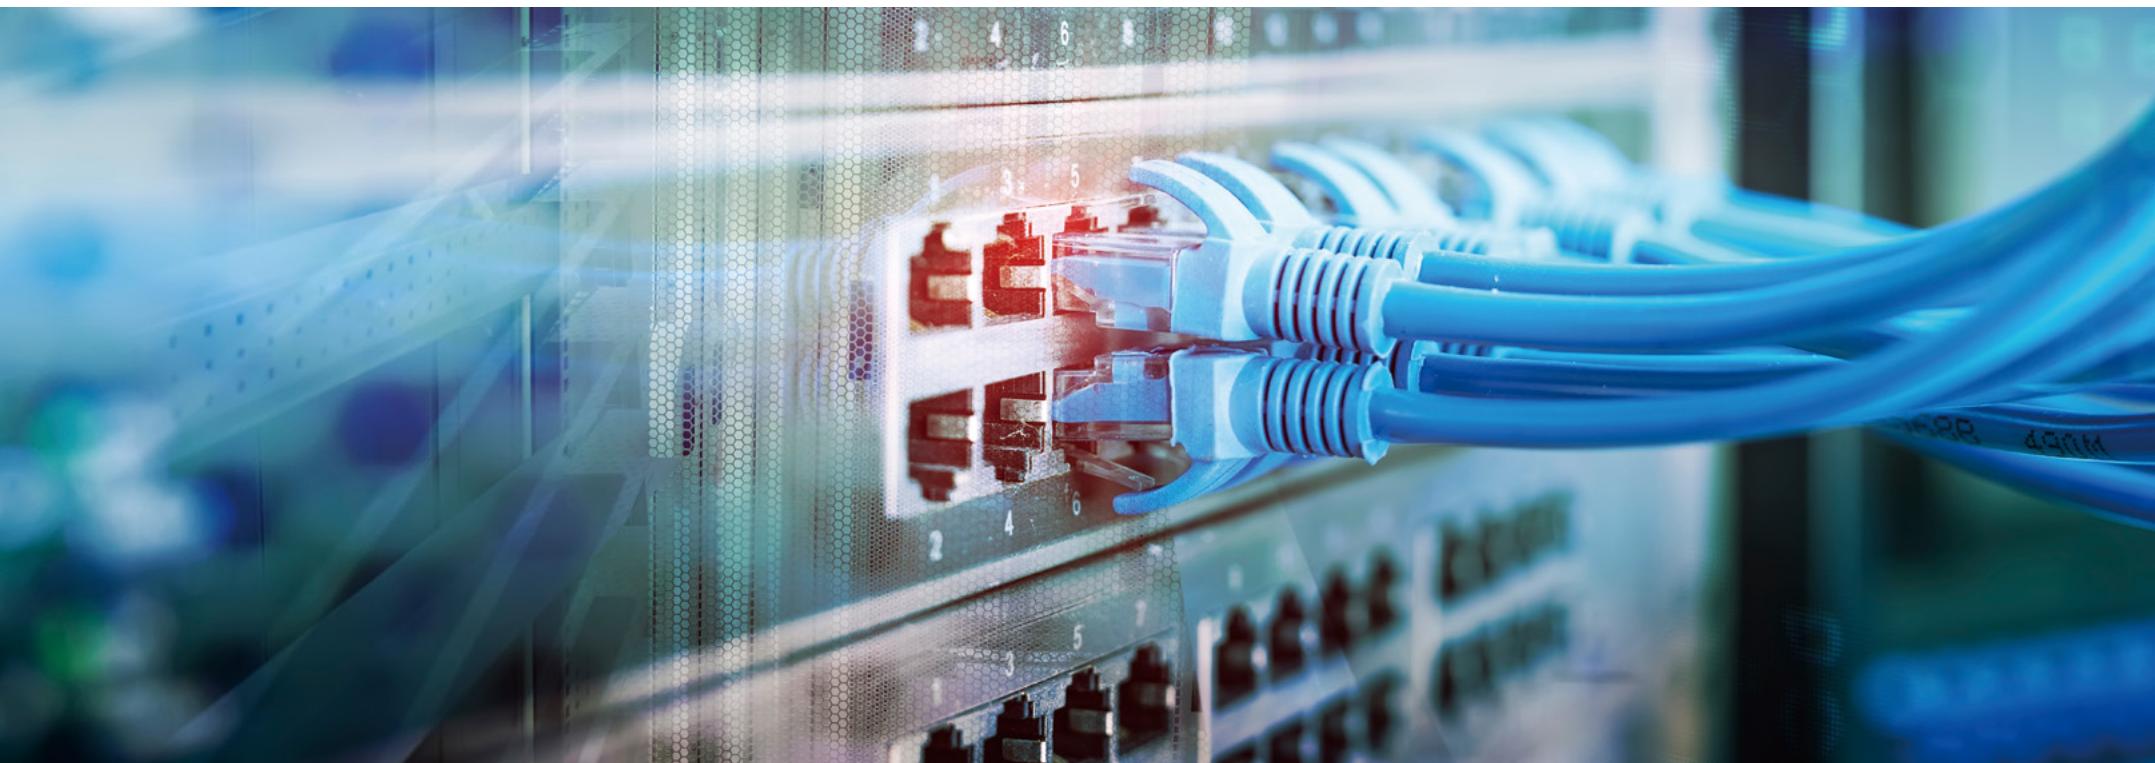

Sufficient API provided by Dahua, which allows any technology partners to integrate with WizMind products.

Complete SDK demo and API document available on our website, with strong customer support.

Standard protocol, like ONVIF, Wiegand is supported by Dahua products, allow you to use Dahua products with 3rd party software even without any integration.

# ePoE

Dahua ePoE technology provides a new way to accomplish long distance transmission between IP camera and network switch. It allows more flexible surveillance system design, improves reliability and saves construction and wiring cost.

# Security Radar / Radar-PTZ Linkage System

The Security Radar / Radar-PTZ Linkage System, based on the principle of radar detection and intelligent tracking algorithm, can achieve all-weather and all environment target intrusion detection and display the movement tracks of the target on the radar map. Combined with Dahua's own ball control technology, it can realize essential functions including global radar large-scale detection and multi-PTZ video detail tracking by accessing the general PTZ cameras.

Works in all-weather conditions (darkness, heavy fog, rain, snow, etc.) with extra wide angle detection range.

Low false alarm rate through adoption of smart radar algorithm, movement tracks display, PTZ real-time monitoring, and human/vehicle target filtering.

## Highlights

Configuration and management on DSS platform for radar-PTZ smart tracking system.

Supports linkage of multiple PTZ cameras to one radar, or multiple radars to one PTZ, providing high-caliber set of alarms.

# NETWORK CAMERAS

# WizMind Series Network Camera

With advanced deep learning algorithm, Dahua WizMind Series network camera supports various intelligent functions and satisfies the requirements in different scenes. This series of network camera has excellent image processing technology, performs good in WDR and low illuminance environment, and provides better solution for intelligent application.

## Perfect Performance

Adopts the advanced AI technologies including deep learning algorithms.

## AI Functions

- Face Recognition
- Privacy Protection
- Video Metadata
- People Counting
- Heat Map
- Stereo Analysis
- Smart Tracking Algorithms

## Smart H.265+ & Smart H.264+

With advanced scene-adaptive rate control algorithm, the Dahua Smart Encoding technology offers higher encoding efficiency compared to H.265 and H.264, providing high-quality videos and reduces storage and transmission costs.

## Excellent Image

Provides clear image with the help of Ultra WDR (140dB)/Starlight+/Full-color.

# Panoramic Series Network Camera

When designing surveillance applications, wider monitoring coverage and larger zoom requirements have become necessary. Through multi-sensor automatic stitching technology, Dahua Panoramic surveillance realizes 360° no blind spot monitoring with high-speed PTZ that utilizes both panoramic and detailed images to ensure that customers will not miss other targets on the panoramic view while looking at the details of the target's behavior on the PTZ Camera.

## Wider Coverage

360° panoramic coverage replaces multiple cameras to save wiring and labor costs for customers.

## Crowd Density

Quick alarm linkage alerts monitoring personnel to disperse the crowd to prevent accidents caused by congestion.

## Smart Tracking

With 40x optical zoom, it can quickly auto-track moving targets, without missing target behavior details.

## AR Map

AR Label displays the video of corresponding camera, making monitoring more visual and convenient, and significantly improving command efficiency.

# Special Series Network Camera

This special product series offers a wide-range of cameras, such as pinhole camera, corner camera, anti-oil camera and mobile camera. It provides suitable products for special industries. Pinhole Series camera is applicable in hidden or small scenes such as ATM and advertising screens. Corner Series camera supports perimeter protection, people counting and IK10+50J protection, which is ideal for sensitive scenarios like banks. Anti-oil camera is widely applied in kitchens, oil plants and other heavy oil-related scenes. Mobile camera is suitable for transportation including buses and railways.

## Pinhole Camera

- Easy Installation
- Optimized Image
- Highly Flexible and Covert
- Face Detection
- 120dB WDR

## Corner Camera

- IK10+50J Protection
- No IR Exposure
- Super Wide Angle
- People Counting
- Queue Management
- Perimeter Protection

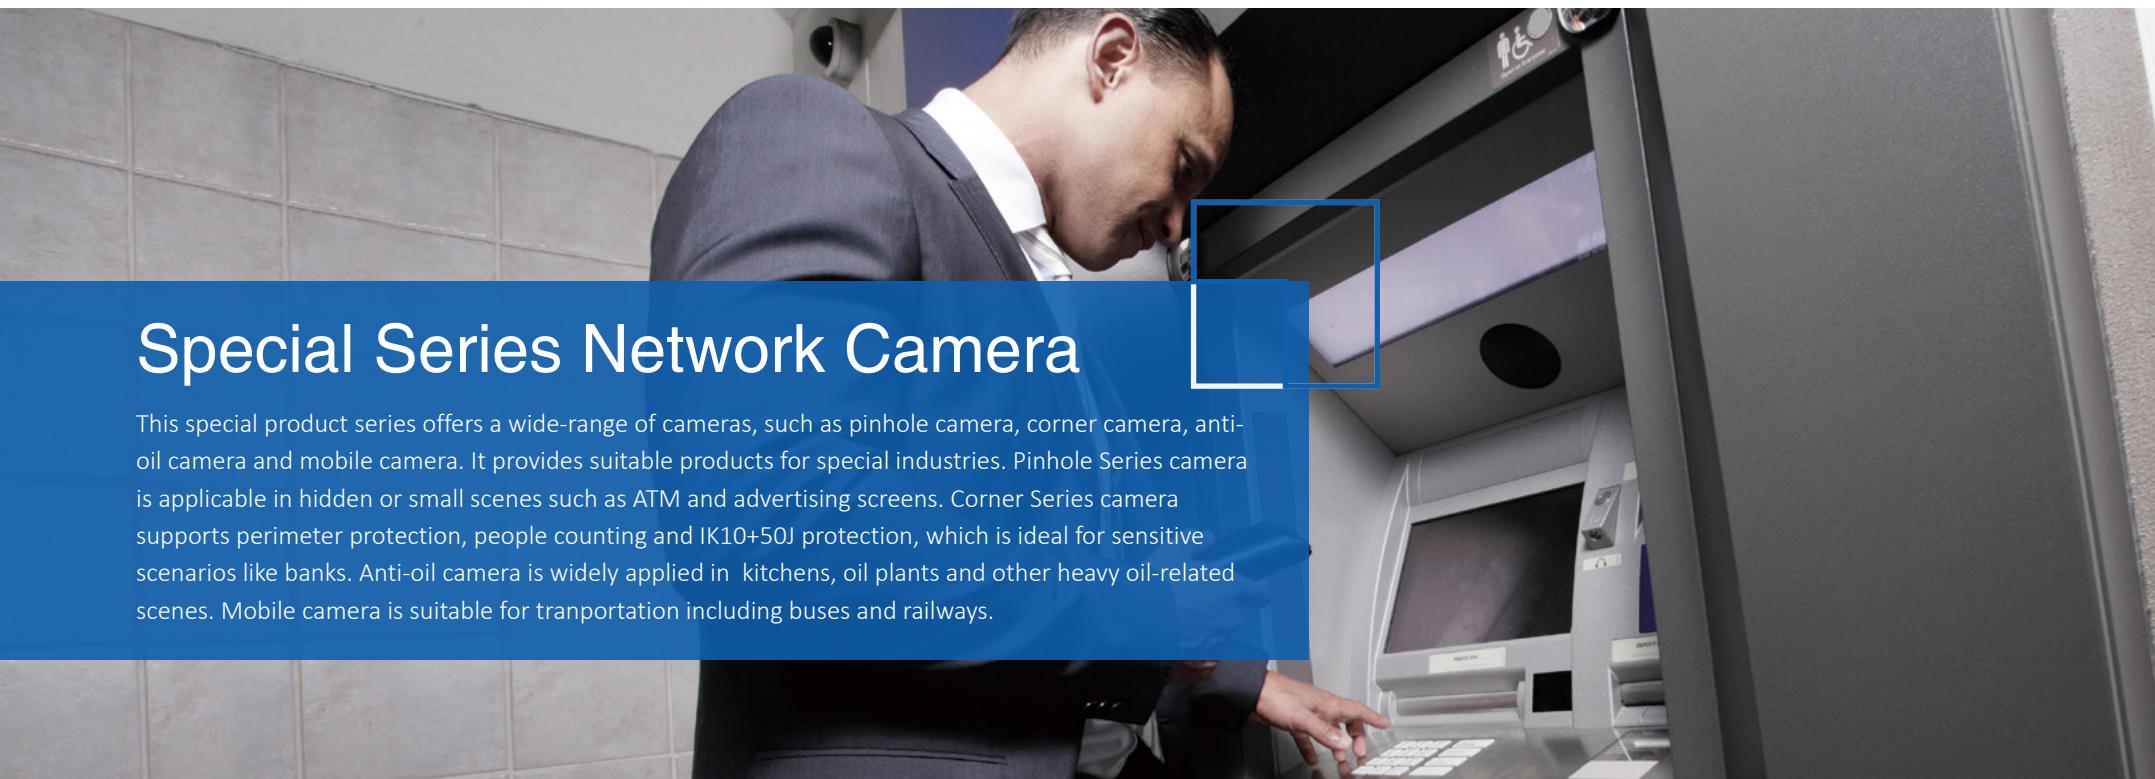

## Anti-oil Camera

- Starlight
- 120dB WDR
- Perimeter Protection
- SMD
- Smart H265+/H264+

## Mobile Camera

- People Counting
- Face Detection
- ANPN
- 120dB WDR
- IP67 & IK10

# NETWORK PTZ CAMERAS

## WizMind Series PTZ Camera

WizMind Series PTZ cameras adopt with advanced AI technologies, including deep learning algorithms that primarily target people and vehicles, providing higher flexibility and accuracy for end-users. Perimeter Protection, Metadata, and Fave Recognition, it aims to provide potential risk prevention and real-time event alarm.

### Face Recognition

It provides highly accurate detection and recognition with advanced AI technology.

### Auto Tracking

Auto tracking supports targets classification tracking.

### Video Metadata

Attribute information are extracted from targets, including human body, human face, as well as motor and non-motor vehicles.

### OIS

Large Optical Zoom with Optical Image Stabilization offers better performance.

# All-environment Series

All-environment Series is designed for projects with high performance requirements and special requirements such as explosive and corrosive environment surveillance. Most of these models can be mounted upright (some of them can be mounted both upright and inverted).

## Powerful Zoom

Its 25x, 40x, 48x and 60x optical zoom easily covers large areas.

## Super IR Range

Cameras provide up to 1,200m IR range performance even in dark environments.

## Perimeter Protection

Supports people and vehicle classification, which significantly improves accuracy, reduces false alarms and decreases pixel count requirements for object detection.

## PFA

Improves focusing performance to a new level.

# NETWORK VIDEO RECORDERS

# WizMind Series NVR

The WizMind series, which adopts advanced AI chip and industrial design, delivers more powerful artificial intelligence performance. Featuring face recognition, perimeter protection, and video metadata algorithm, it provides users with real-time event alarms, as well as quick target tracking.

## Face Recognition

Supports recording of face image metadata and real-time crosschecking with incredible accuracy to locate the face image that matches the target's features.

## Perimeter Protection

Supports people and vehicle classification, which significantly improves accuracy, reduces false alarms and decreases pixel count requirements for object detection.

## Video Metadata

Attribute information are extracted from targets, including human body, human face, as well as motor and non-motor vehicles.

## Rich Features

Offers AI by camera features including ANPR, Perimeter Protection, Face Detection, Heat Map, People Counting and SMD Plus.

## Ultra Series NVR

The Ultra Series is an ideal option for applications which require powerful performance and high reliability. Its multi-core CPU and redundant design ensures stability while its advanced intelligent features provide complex applications with intelligent video analytics.

### Powerful Processor

Multi-core Intel CPU provides high performance processing

### Industrial Design

High quality design ensures high reliability and data safety.

### Data Protection

RAID 0/1/5/10, N+M Failover.

### Rich Features

Offers AI by camera features including ANPR, Perimeter Protection, Face Detection, Heat Map, People Counting and SMD Plus.

# Pro Series NVR

The Pro Series is a perfect choice for middle to large-scale businesses and projects where both high reliability and flexibility are required. Innovative H.265+ encoding technology and advanced intelligence such as Perimeter Protection by camera further enhance surveillance monitoring.

## Powerful Processor

ARM Cortex A17 quad-core CPU delivers 4ch@4K/16ch@1080P.

## Smart H.265+ & Smart H.264+

Supports Smart H.265+/H.264+ decoding, providing high-quality videos and reducing storage and transmission costs.

## Advanced Intelligence

Offers AI by camera features including ANPR, Perimeter Protection, Face Detection, Heat Map, People Counting and SMD Plus.

## Rich Features

Fisheye dewarp, POS, P2P.

# MNVR Series

MNVR is a special type of video recorder, which can be used in moving and vibrating scenarios to ensure road safety. Equipped with deep-learning algorithm, it can support more intelligent functions including ANPR, ADAS, and DSM. It can trigger real-time alarm and transmit video or other information via 3G/4G/WiFi, efficiently managing all the vehicles on the road.

## Extreme Environment Performance

- Supports Wide-range temperature: -30~75 °C.
- Supports Anti-vibration.

## Reliable Power Design

- Supports data writing even after sudden power failure.
- Supports 6V to 36V wide power voltage input.

## Wireless Transmission

- Supports transmission of real-time video or alarm via 3G/4G/WiFi.
- Supports GPS module.

## AI Functions

- Supports ANPR, Advanced Driver Assistance System, Driver Status Monitoring, as well as Face Comparison in 8 series.

# MOBILE NVR

# EMBEDDED VIDEO STORAGE

# Embedded Video Storage

The EVS (Embedded Video Storage) is designed and developed to meet the needs of medium-range to high-end video storage applications. It provides a dual-mode storage solution that is able to work in both IPSAN mode and direct video stream storage mode.

## Modular Design

All key modules allows hot-swap and redundant configuration to ensure stability.

## RAID

Supports RAID 0/1/5/6/10/50/60 for faster and safer recording.

## N+M Failover

M failover nodes provide highly reliable redundancy to take over multiple faulty nodes for video safety.

## Storage Extension Capacity

Local extension connects with expansion storage cabinet via mini SAS HD interface.

# NETWORK THERMAL CAMERAS

# Security

Dahua thermal security series camera integrates thermal imaging technology, visible light technology and AI technology to provide all-weather monitoring with high security level. It's an extremely versatile solution for critical infrastructure protection, forest fire prevention, border security, etc. It can be used even in total darkness or harsh weather conditions, providing a wide range of products for users in various industries.

## Long Range Detection Capability

The Dahua leading thermal imaging technology has ultra long range detection capability that can spot vehicles (up to 20 km) and human targets (up to 8 km) with fine details.

## Advanced Fire Detection

Dual-channel monitoring allows thermal cameras to early detect the source of fire, and visibly track it in the system.

## Excellent Environmental Adaptability

Dahua thermal camera can convert the thermal radiation into a visible image even in harsh environments including no-light, backlight, haze and so on.

## AI Function Integration

It is equipped with built-in deep learning algorithms and better AI hardware performance in order to meet different business requirements.

# Thermography

Dahua adopts high precision sensor and advanced temperature measurement algorithm, which can realize high precision and wide range temperature measurement. In addition, a variety of temperature measurement rules are supported to meet the needs of end users for different scenarios.

## Industrial Temperature Measurement

Industrial temperature measurement distance is as far as 50 meters, which meets the requirements for 24/7 real-time monitoring of multiple devices.

## Body Temperature Measurement

This non-contact body temperature measurement offers quick screening, wide coverage and multi-person detection. The accuracy can reach up to  $\pm 0.3^{\circ}\text{C}$  with the blackbody.

## High Accuracy

Aside from its  $\pm 0.3^{\circ}\text{C}$  body temperature measurement accuracy, its industrial temperature measurement accuracy can reach up to  $\pm 2^{\circ}\text{C}$ .

# INTELLIGENT TRANSPORTATION CAMERAS

## Intelligent Transportation Camera

The intelligent transportation camera series is designed for special industries with the highest quality and requirements. High-performance AI processor and deep learning algorithms allow the camera to detect and extract detailed information of any types of vehicles, providing reliable data source for business decision making. Its integrated design is suitable for various harsh environments and all-weather conditions.

### Enforcement Cameras

With industry-specific image sensor, high-performance AI processor, and deep learning algorithm, the enforcement camera is ideal for intelligent traffic management and safe city businesses, offering intelligent functions including traffic violations capturing in both ANPR and violation snapshots, passing vehicle records, traffic data collection, event detection, etc.

### Access ANPR Cameras

Access ANPR cameras are designed for license plate monitoring in low-speed scenarios, such as parking lots and gas stations. It is suitable for vehicle entrance & exit management as it has a allowlist function and the ability to control barrier gates. With embedded ANPR algorithms and true WDR, the Access ANPR camera can accurately detect and recognize vehicle license plates in all kinds of environment.

### Parking Spot Detectors

Parking space detector is suitable for indoor parking areas. The parking detector can provide comprehensive video surveillance in parking lots, accurately monitoring up to 6 parking spaces status and recognizing plate numbers of vehicles at the same time. In addition, a 7-color indicator can be used to guide vehicles in finding available parking spaces.

# TRANSMISSION

## Transmission

Dahua has a complete product lineup and mature network solution design capabilities in networking. From wired to wireless, it can provide different products and solutions for various applications such as safe cities, enterprises, parks, streets, shops, etc. These solutions have been commercially applied in more than 100 countries and regions around the world.

### Wide Working Temperature Design

The Dahua industrial PoE switch can function normally in a wide range of extreme temperatures from -40 to 75°C.

### High Speed and Bandwidth

Dahua aggregation and core switches offer high bandwidth and are available in a wide range of port configurations including 1G, 10G, and 40G.

### High Availability

Dual power redundancy, ring network and three-plane security assurance mechanisms IRF2 guarantee the reliability of the network.

### Unified Management

Dahua iLinksView network management platform greatly simplifies network operation and maintenance in CCTV network.

# DISPLAY & CONTROL

# Display Device

Adopting industrial design, Dahua's display devices offer a variety of products to choose from, including monitor, LCD video wall and LED display. It features great performance and supports 24/7 continuous operation. It also offers high definition resolution, excellent color reproduction, rich interface, elegant appearance, short response time, good compatibility with Dahua's security devices, etc.

## Monitor

- Industrial level LCD panel, for continuous 24h/7 operation
- HD/Ultra-HD resolution
- Rich interface
- Realistic and immersive visual experience

## LCD Video Wall

- Industrial level LCD panel from 46"~65", for continuous 24h/7 operation
- Rich interface
- Extreme narrow bezel, virtually seamless effect
- Fast stacking installation, front and rear two maintenance modes

## Indoor Fine Pitch Series LED Display

- Seamless splicing for any size screen
- High color gamut 12~16 bits brings fantastic visual experience
- Front and rear two maintenance modes for convenient installation

## Video Management Platform

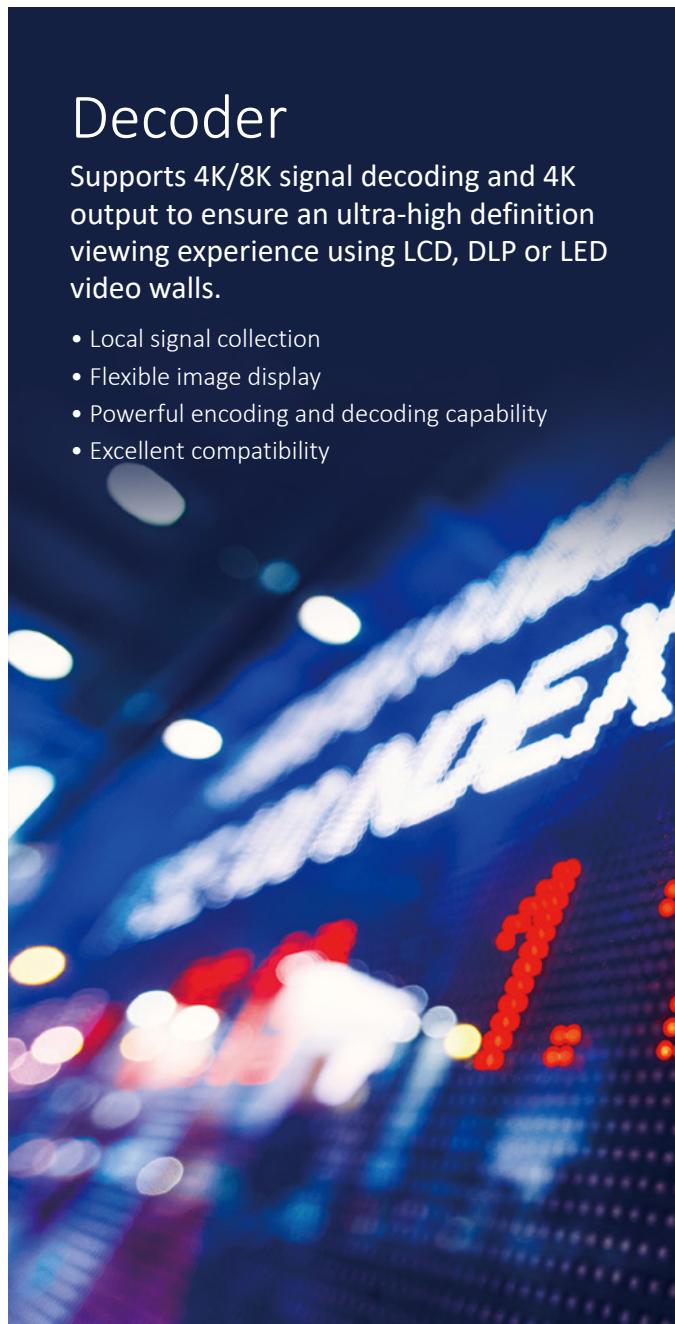

Offers enhanced processing capabilities and flexible configuration with pluggable card module design to ensure excellent viewing experience using LCD, DLP or LED video wall.

- 19" Standard atca industry box with slotted design
- Flexible image display
- Powerful encoding and decoding capability
- Excellent compatibility

### Video Management Platform

## Decoder

Supports 4K/8K signal decoding and 4K output to ensure an ultra-high definition viewing experience using LCD, DLP or LED video walls.

- Local signal collection
- Flexible image display
- Powerful encoding and decoding capability
- Excellent compatibility

# ACCESSORIES

# Accessories

Accessory products offer a series of supporting equipment for CCTV monitoring devices promoted by Dahua to enhance product integrity and user experience, and supplement the insufficiencies of traditional products and solutions.

## Camera Mount

Offers a series of solutions for the installation of cameras.

## Power Supply

Provides different power supply type for devices with different specifications.

## Detector-radar

Realizes real-time trajectory tracking for multiple targets in a wide range.

## Solar Power

Provides solutions for outside monitoring scenarios where wiring is difficult.

## Lenses

A wide range of multi-functional lenses for the box camera.

- Super edge resolution
- Great highlight performance
- Outstanding starlight technology
- Better temperature performance

# Power Supply

Safe and reliable power supply for our products.

- DC power adapter: Wide temperature operation range of -30°C~+70°C and lightning protection up to 4kV.
- UPS: Temporary power discharge equipment between utility and equipment

## Camera Testers

It allows easier testing of cameras that only requires a single person to operate, saving significant amount of time and labor costs.

- Camera video tester
- Small tools: DMM/Wifi test/OPM/Data monitor
- Cable tester: TDR/ Analog video generator
- Power supply: PoE+/ DC12V2A/ USB5V2A output

# Distribution Boxes

With various functional modes, these distribution boxes are designed for simultaneous power management in monitored outdoor environment.

- Basic outdoor protection function, waterproof and anti-theft
- Reserve standard 3.5" guide rail installation position
- Pole mount and wall mount
- Aesthetic design, easy installation

## Distribution Boxes

# ACCESSORIES

## Security Radar

Security radar is usually used for perimeter or area detection using its smart-tracking function with PTZ cameras.

- 24/7 all-weather and all-environment detection
- High accuracy: low false alarm rate, zero false negative rate
- Real-time trajectory tracking, graded alarm set
- Movement tracking display, target filtering (human and vehicle)
- Centralized platform management

## Visual Radar

Visual Radar integrates the trajectory tracking of the radar module and the video tracking of the camera, suitable for entrance and exit monitoring.

- Radar and video integration
- Extremely low rate of false alarms
- 24/7 all weather
- Speed filtering of target
- Target filtering of human and vehicles
- Sound and light alarm

## Solar Power

Dahua solar power system provides convenient and stable power supply for front-end monitoring equipment.

- Free combination, high flexibility
- Solar energy, short construction period
- Wireless transmission, Easy wiring
- Client state real-time monitoring, reducing the maintenance cost

### Integrated Solar Monitoring System

Model	PFM364L-D1	PFM363L-D1	PFM363L-SD1	KIT/PFM364L-D1/IPC-HFW4230MP-4G-AS-I2/PFB121W
Appearance				
Solution	For 4G solution	For 4G solution	For wireless solution	For 4G solution
Rated Capacity (20°C, 5hr)	576Wh (12.8V/45Ah)	576Wh (12.8V/45Ah)	576Wh (12.8V/45Ah)	576Wh (12.8V/45Ah)
Solar Cell Efficiency	21%	21%	21%	21%
IP Rating	IP66	IP66	IP66	IP66
Installation	Pole-mount, suitable for Ø76~96mm (Φ3.0"~Φ3.78") pole			
Operating Temperature	Day (charging mode): 0°C~60°C (32°F~140°F) Night (discharging mode): -20°C~60°C (-4°F~140°F)	Day (charging mode): 0°C~60°C (32°F~140°F) Night (discharging mode): -20°C~60°C (-4°F~140°F)	Day (charging mode): 0°C~60°C (32°F~140°F) Night (discharging mode): -20°C~60°C (-4°F~140°F)	Day (charging mode): 0°C~60°C (32°F~140°F) Night (discharging mode): -20°C~60°C (-4°F~140°F)

### Solar Panel

Model	PFM371-150	PFM371-M275	PFM371-M330	Model	PFM372-L45-4S14P	PFM374-L45

DMSS

Digital Mobile Surveillance System  
Monitor Anything with Your SmartPhone or Tablet Anytime, Anywhere

Devices	Supported Devices	DVR, NVR, IPC, VTO, DoorBell, Alarm Hub
	Add Device Method	IP/domain, SN, Import form cloud, Soft AP
	Features	Remote config, Alarm config, HDD info, Share device list
Video	Compression Format	H.265/H.264/MPEG-4/JPEG
	Display Resolution	Up to 1920×1080
Live Preview	Max. Channels Can Be Opened at The Same Time	256
	Features	Snapshot, Record, Instant playback, PTZ, Stream control, Talk, Audio, Alarm, Color, Favorites, Remember channels
Playback	Video Playback Duration	24 hours
	Features	Snapshot, Record, Speed up / slow down, Frame-by-frame, Cut
Alarm Push	Alarm Type	Motion detect, Camera masking, Local alarm, Disk alarm (no disk, Low space, disk Error), Face detection, Ivs alarm, Thermal Imaging Alarm, Defocus, Audio Detect, HDD Alarm, Sensor Alarm, Network Alarm
	Push Type	Video, Preview

# DORI DISTANCE (D/O/R/I)

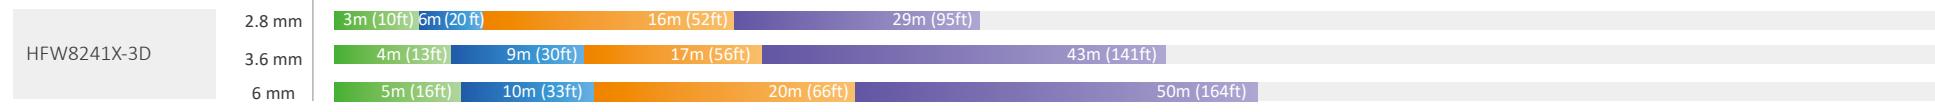

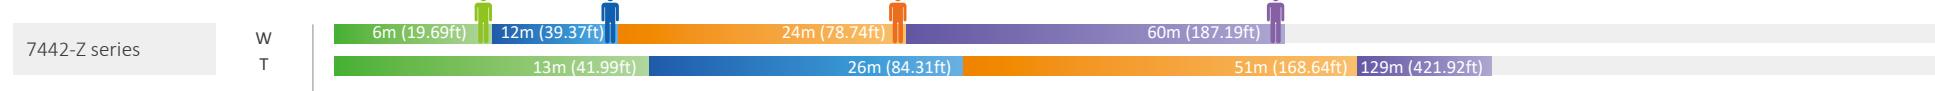

Find the Optimal Camera for Your Customized Surveillance Needs

The DORI distance is a “general proximity” of distance which makes it easy to pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specification and lab test results according to EN 62676-4 that defines the criteria for Detect, Observe, Recognize, and Identify, respectively.

- █ Detect: 25ppm
- █ Observe: 63ppm
- █ Recognize: 125ppm
- █ Identify: 250ppm

The DRI (Detection Recognition Identification) is defined in terms of the number of pixels on the object depend on a common standard, Johnson's criteria

[[http://en.wikipedia.org/wiki/Johnson's\\_criteria](http://en.wikipedia.org/wiki/Johnson's_criteria)].

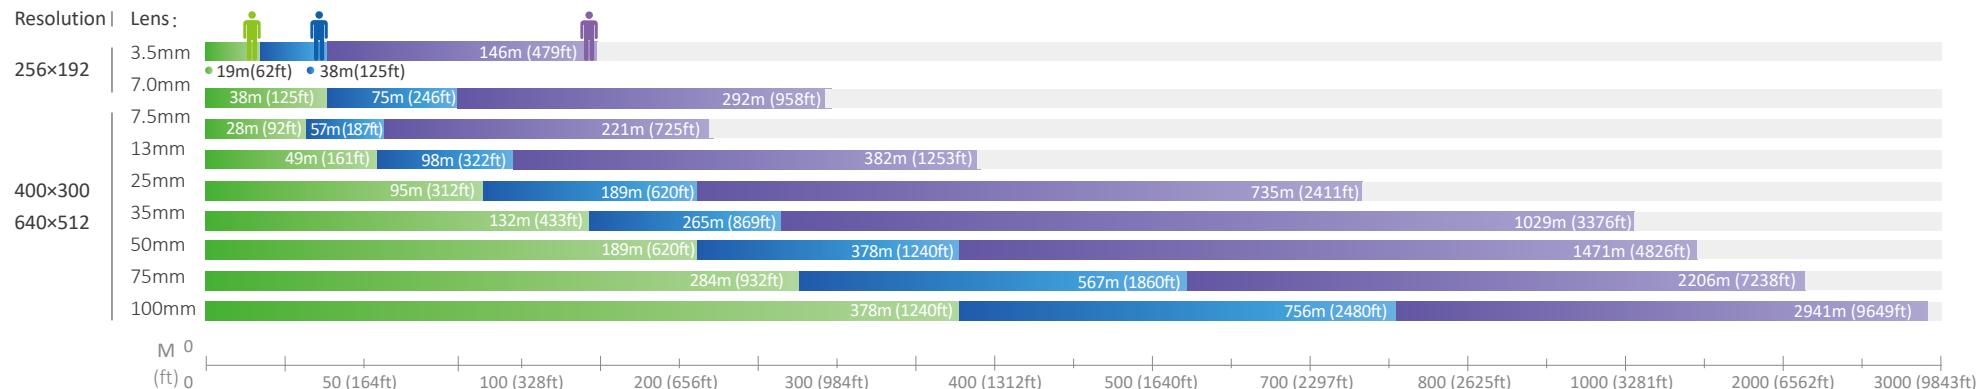

- █ Detection distance
- █ Recognition distance
- █ Identification distance

**Detection:** Distinguish objects from backgrounds [Something is there]  
Required minimum pixels: Human 3.6 pixels, Vehicle 3 pixels

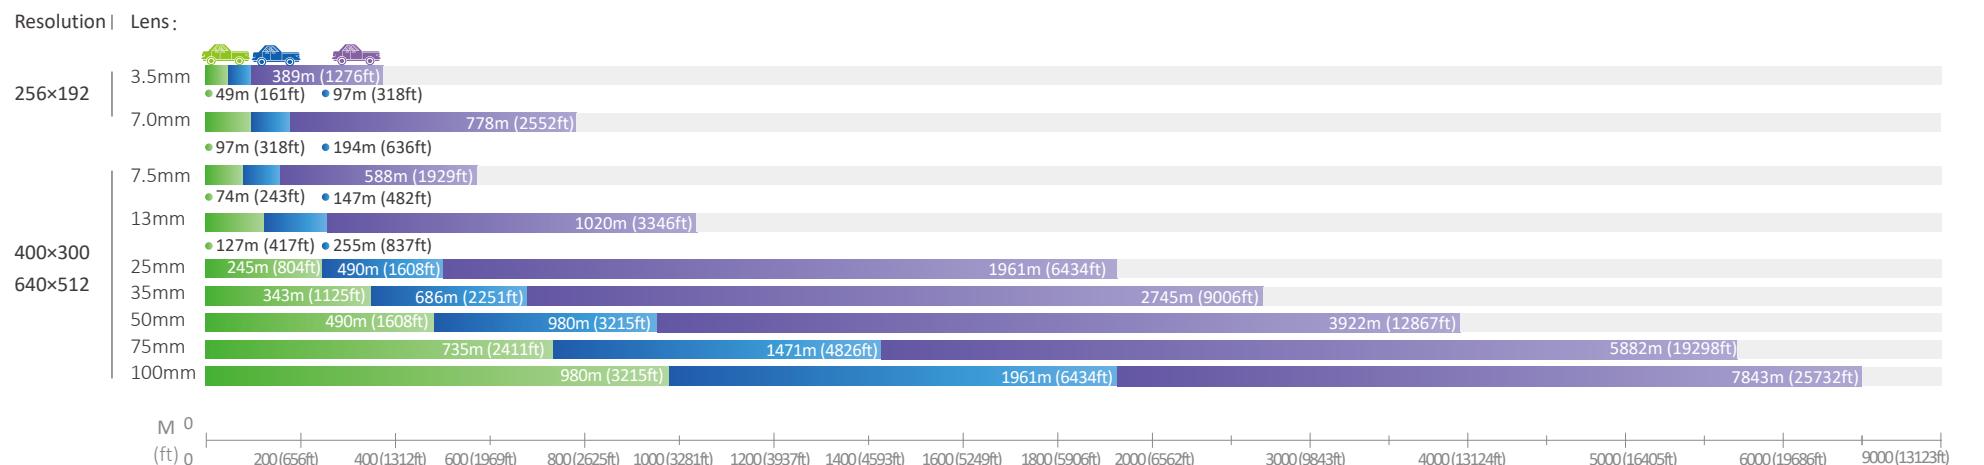

**Recognition:** Distinguish classification of objects [Human, Vehicle or Building]  
Required minimum pixels: Human 14 pixels, Vehicle 12 pixels

**Identification:** Identify characteristic of objects [Soldier, Pickup truck or Hospital]  
Required minimum pixels: Human 28 pixels, Vehicle 24 pixels

### People (1.8m×0.5m)

### Vehicle (4.0m×1.4m)
